### SAFELY CROWNED.

The Czar of All the Russias Put On the Imperial Crown This Forenoon.

MOSCOW IN REGAL SPLENDOR

SOLDIERY, NOBILITY AND IM-MENSE THRONGS OF PEO-PLE WITNESS THE GREAT EVENT OF ROYALTY.

[Special Dispatch to the Transcript.]

Moscow, May 26.-The day has been a glorious one, and all nature has seemed to smile on the czar's coronation. The weather was perfect.

The Kremin and countless churches with their gold and silver colored cupolas everywhere shone resplendent with the sunshine. The ringing of the bells of the many churches joining with the cathedral bells at the conclusion of different portions of the ceremony were broken now and then by the booming cannon, but filled the air with music to thrill even the most impassive Nonjik.

Throughout the night and early morning myriads of people flocked the city and at 7.30 o'clock when the first artillery salute echoed over the city, all the streets in the vicinity of the Kremlin palace were densely thronged. At 11.20 booming cannon and pealing bell announced the act of coronation completed. At noon their imnerial maiesties were anointed. At 12.30 o'clock the ceremonies at the cathedral of the Assumption were finished and their majesties reached Granovitaia at 1 o'clock.

On leaving the cathedral their majesties attired in full splendor proceeded to the red terrace of the palace in full view of the immense multitude. It was a scene of indescribable enthusiasm, the crowds being carried away by the intensity of the feeling awakened. The spectacle of coronation in the cathedral was impressive in the extreme with its splendor of religious ritual and solemn pomp. Ever / detail of the ancient rites

was followed most minutely. At 7.30 o'clock this morning the ceremonies commenced with a salute of twenty-one cannon shots, marking the opening of the day, and at the same hour the bells in the cathedral of the Assumpt-

ion began ringing

Half an hour later, under the guidance of the Arch-Grand-Master-of-the-Ceremonies, all the court dignitaries and distinthe imperial cortege, as well as those who were to take part in the ceremony, began to assemble in the halls of the palace and at8 o'clock other court officials and digni taries gathered in the cathedral. The ladies were the Russian court dress and the dignituries were in full uniform. The foreign representatives and ambassadors

were at the palace and cathedral also. Previous to this an immense body of troops had been gathered around the Kremlin and from one end to the other of the route followed by the imperial party, in passing from the palce to the cathedral of the Assumption and from there to the other cathedrals of the Kremlin, troops formed double lines on both sides, those immediately protecting their majesties being the Grenadiers of the palace and detachments from the various cavalry regiments of which his majesty, the czar, is colonel-in-chief. In the interior of the palace were other

A Te Deum for the preservation of the lives of their Majesties was celebrated in the Cathedral at 8 o'clock in the morning and, after prayers the coronation march and ceremonies began. Columns of type could not name the grandees and nobility present and describe the pomp of the ceremony, which was most elaborate. A grand feast ended the ceremonies this

### IN CONGRESS TODAY.

There May be a Tax of Seventy-five Cents put on Each Keg of Beer.

(Special Bispatch to the Transcript.) WASHINGTON, May 26.-In the senate Senator Quay was on the floor for the first time since he visited McKinley. He was greeted by a number of senators.

The pension committee reported, in favor of passing the bill pensioning Fran cis Hoover over the president's veto. On motion of Sherman the filled-cheese

bill was taken up. The bond bill continued as unfinished business after 2 o'clock. Dubois of Iowa offered an amendment, placing a tax of 75 cents per barrel on beer, porter ale, etc. •

In supporting his amendment, Dubois said it offered an opportunity to Mr. Sherman to execute his patriotic purposes recently expressed without resorting to a Dingley tariff bill.

Sherman replied briefly, urging that this was a move to cripple the cheese bill which was in no sense a general revenue bill, and moved to table the beer amendment. The motion was defeated, yes, 25; nays, **3**0.

In the house Kem made the point of no quorum on the approval of the Journal and ten minutes was consumed in waiting the appearance of members. The debate on the alcohol bill was resumed,

DEATH AND STORM

Still Another Awful Cyclone, This Time in Southern Illinois This Morning.

### NUMBER DEAD IS UNKNOWN.

DETAILS OF THE MICHIGAN CYCLONE LAST NIGHT MAKE THE LOSS OF LIFE THERE FRIGHTFUL.

[Special Dispatch to the Transcript.]

CAIRO, Ill.-A terrible cyclone an storm has caused death and disaster in this section. A hurricane and cloud-Raines law is constitutional. It was a test | burst combined struck Cairo at 8.30 o'clock this morning. Thirteen lives were lost by the sinking of a ferry boat at the wharf. Five miles of telegraph poles are down ane it is impossible to tell the extent of damage to the south, but it is believed to be very great.

OXFORD, Mich., May 26 .- The cylone ereabouts last evening was far more terrible than at first known. #### CHURCH. BATTLE OF BULL RUN CHESHIRE

The Baptists of the Famous Cheese Town Still At It.

FIGHT GOES BRAVELY ON.

Special Meeting Monday Night, A Conjoint Movement of Law and Gospel. "Charley" Didn't Respond. On the Steps Adjoined to Town Hall.

The stir of the town of Cheshire the east two days has been the whole theme of conversation there. The attempt to make a decided move on the part of the lisaffected of the Baptist church towards the removal of the pastor, Rev. E. N. Harding, culminated Monday evening in a the notice being read from the steps of

At the appointed hour, a few of the anti-Harding faction, accompanied by heriff Frink and Lawyer Couch of North Adams, with several reporters from out of town, assembled at the steps of the church, while at the neighboring houses and the store across the way, and in squads upon the lawns about, had congregated several hundred people to witness this novel effort at settling this troublesome affair. Ex-Clerk of the Church Martin.—he having been superceded by L. J. Northup at the last annual meeting went to the church door and rapped, asking for "Charley." Who "Charley could be was a question, and after calling twice and receiving no response, he stepped to the front step and read the call for a special business meeting.

D. F. Bucklin was made moderator, Then the meeting was adjourned to the Town hall, but a few rods away. One hundred persons were present there, being but fifty members of the society, all voting in a body unanimously upon all

the articles in the notice. After prayer by A. J. Leonard, F. A. Martin was chosen to notify the pastor, Rev. E. N. Harding, to sever his connec tion with this church. Article 4 and section 2 of the church manual was repealed and recinded, this section of the manual being a great objection to the disaffected when they found they were defeated in the vote for officers of the church at the with a population of 500 not a house is left | last annual meeting, as they claimed the pastor took advantage of his power to control the meeting. The article reads as

follows: "Special meetings may be called by the pastor. In his absence the clerks shall call such a meeting on a written request signed by not less than seven male mempers, and the notice shall be publicly given from the pulpit on the Lords day ecceding.

This meeting voted to incorporate at the next annual meeting. The meeting closed after taking a vote to continue over to the next annual meeting, January, 1897, the officers elected in 1895. This vote was an attempt to ignore the present board of officers of the church, who are, n large part, in accord with Pastor Hardng. This effort has a good deal of apparent bluff about it, as the outside public look upon it.

The ginger ale bottling establishment conducted by C. V. Parker at 33 Brooklyn street was raided by Sheriff Frink and Special Officer Robertson at 12.15 o'clock

### Thought It Would Explode.

There was plenty of excitement at the home of Mrs. Lucy Cronin, 16 Main street about 10.30 o'clock Monday evening. The family was gathered together in the front room which was lighted by a small lamp. The lamp chimney suddenly broke and fell to the floor and a draft of air caused the flame to act strangely. Mrs. Cronin's sons thought the lamp was about to explode and hurled it through an open window to the street below. It crashed when it struck and the fragments were picked up by boys and thrown into a refuse barrell,

A MILITIA CAMP IN THE SIXTIES.

The First Brave Words for War and Union Spoken from Pulpit and Press in This Place, and Who Spoke Them.

CHAPTER IL The Wednesday evening previous to election, 1860, witnessed the torchlight parade of 800 Wide Awakes in line in the streets of North Adams under the direction Chief Marshall Edwin Rogers and aids, while the village blazed with general illumination. On this occasion all the meeting in answer to a call made Sunday, | clubs of Northern Berkshirhe were present, and Hon. James T. Robinson in eloquent speech presented the North Adams club an elegant banner, a gift from Repub

lican ladies of the village. The election occurred November 6 and it more resembled all the voting population going to church, than to the polls. The intelligent voters knew how much the country had at stake in the last of the ballot on that day, at least the great majority of them who registered their suffrages for God and freedom and for men for high office, which no one has since ithat memorable occasion had the audacity to dispute were not only man, but God chosen.

As we write it seems like a far away dream, that anxious waiting and watching for state and national returns. Think of it ye readers who now through the medium of ocean cables, lands spider-webbed with telegraph and telephone wires and rapid steam and electrical transit, whose brains are feasted and pampered with the whole happenings two great hemisperes twice in every twenty-four hours with startling news gleanings and rumors fed in mental sanwiches every hour of each day, what it was in that now distant period of time to wait for days for those full returns which gave to this nation Abraham Lincoln for its president and saviour in its time of dire distress and need, and a cordon of great war governors of the northern and western states, who with his famous cabinet, and backed shoulder to shoulder by capitalist and patriot manhood, by brave wives and daughters, dauntless armies on foot and on horse naval squadrons and staunch artitlery led by brave captains who like the veritable sons of Aaron held up his hands until the gloom of tyranny in our republic was dispelled by the glorious sunshine of universal freedom.

It was May 24, 1860, when Editor Phillips hoisted the names of Lincoln and Hamlin at the head of his columns, with "Old Glory" waving above them, adding thereto the other Republican nominations as they were made. It was November 3, 1860, the final issue of the first term of publication of the Hoosac Valley News, that he announced the election of Lincoln and Hamlin and Andrews and Goodrich, and the mighty cyclone of Republican victories which had swept over the land. It was two weeks later when he issued the Combined News and TRANSCRIPT which he published and edited from November 22. 1860 to November 23, 1865 when he disposed of the journal to its late editor, James T. Robinson.

Up to 1860 there had not been much attention paid in North Adams to military matters, though for several years the Greylock Infantry, a state militia company, had flourished and William D. this military life had been largely due to water from Zylonite and Dry brook. Brigadier General Andrew A. Richmond, a talented lawyer and politician, who always had been an earnest soldier and ofber of the Hoosac Valley News, after a publication of three years and three tary encampment in the village, called of Pittsfield as commandant. The Namen; the Greylock Infantry, Captain C. M. Brown, 85 men; and Hodge's band, 16 men, participated. Before opening this camp these bodies marched to the residence of General Richmond on Summer street and paid him military honors.

The first issue of the combined news and TRANSCRIPT contained an eloquent editorial on "Freedom's Victory at the Ballot Box," and severely arraigned those who for any reasons whatever should further seek to secure dearly bought peace by further compromise with the crime of slavery. The second issue was equally fearless and strong in its editorial arguments against further parley with the slave power, which quite a number of frightened citizens seemed hopeful would be accomplished. Two South Carolina U. S. senators had resigned their seats, the air was full of alarming rumors, and a number of southern subscribers had discontinued the TRANSCRIPT because they feared the violence of the slave holders if they continued to longer receive it. Then followed the cowardly message of

President Buchanan, showing that he had yielded body and soul to the South, followed by a confession that he feared town, to purchase a water supply from assassination if he stood by the Union. Then Wendell Phillips was mobbed in Fancuil Hall, Boston, and Henry Ward | district raise the sum of \$30,000 by means Beecher was mobbed and stoned in the streets of Brooklyn, while Douglas had declared that secession meant anarchy as amended by chapter 292 of the acts of and that he was against it. It had been 1896 for the purpose of carrying out the previously determined that if South Carlina should secede, that the act would inaugurate war, and it was only on that event, December 27, 1860, that for the first time many citizens in Berkshire realized the emergency which had come upon the country. This was soon followed by the ordering of Major Anderson by Gen. Scott to evacuate Fort Moultrie in Charleston barbor, which he did by to the treasurers of the fire district. voters being present as the result of the privilege given them by their employers to leave work for the afternoon withou osing their pay. There were two factions, the Renfrew and the Plankett, and at Monday's meeting the former was the most largely rep-

resented and carried everything for which they cared. The fight began before the meeting, in the distribution of slips bearing the names of A. B. Mole and J. C. Chalmers respectfully for moderator. Clerk F. W Spaulding called the meeting to order and ordered that the meeting ballot for modorator. He appointed these two checkers: George F. Sayles and John M. Morin. A. B. Mole moved the appointment of two more and when the motion was passed Godfrey Sanderson, Jr., and Arthur W.

Safford were added. Then voting began. When only a few votes had been cast Daniel Bergen moved that the box be closed. The crowd show ed it was there for business. Each side was afraid the other might spring a snap of some kind and so the motion was lost There were persistent efforts to end the voting, but all were lost. A. B. Mole made one of the motions and Mr. Chalmers seconded it to no avail. Oliver A. Upton's motion that counting be started was lost. Peter Powers moved that a committee be appointed to count the balots, but Clerk Spaulding ruled him out of order. Meantime voting was going on rapidly and two police officers stood with the ballot box. Finally at 2.45 o'clock upon motion of

William O'Brien, the following committee was appointed to count ballots; Frank Coenan, J. C. Anthony, Godfrey Sander on, Jr., and John M. Morin. At 3.04 o'clock Elisha Burlingame made motion to turn the box and it was lost.

Less than a minute later when hardly any more votes were cast, James Renfrew made the same motion and it was unani mously carried. Five minutes later it wasknown that the Renirew crowd had the meeting by more than two thirds of the legat voters present. There were 470 votes cast au lof these Mr. Chalmers had When Mr. Chalmers took the chair

and other business was opened, Oriver A. Upton moved the use of the check-list in voting. He was ruled out of order. Article 2 of the warrant was to see if

the district would annul the vote recently passed to accept the proposition of the Adams Power company. Elisha Burlingame moved the passage of the article on the grounds that the vote was not legal because there was no article in the warrant of the meeting concerning the Power company's proposition, and the district could not legally act on anything involv-Hodge's fine band had been the military ing so much money unless there was. Then came Article 3, which was to see if the town would increase its water supply; 4, to appoint a committee to act in the matter of an increase: 5, to borrow money to make such mcrease; and Article 6, to see if the town will issue bonds for such purpose. Judge Bixby moved that they be indefinitely postponed.

SPECIAL A. B. Mole thought such action would only leave us another summer without a supply of water. Mr. Bixby replied that the article in question would not expedite matters, James Renfrew made a few remarks which were loudly applauded and when the motion was put it was unanimously carried. Article 7 was to see if the fire district

would raise and appropriate a sum suffi cient to carry out the recent vote of the the Adams Power company. #### LOCAL INTELLIGENCE.

... There were 1110 books given out at the oublic library last week.

-The Ladles Aid society of the Metho. dist church will serve supper Wednesday from 5 to 7 o'clock. -Charles Courchene will have his 'fourtenement house on Walnut street fur

nished by Saturday. Every tenement is already rented. -Work on the Greylock mountain road will be put in good condition as soon as

possible.

-George F. Mitler, who has had some assistance from Charles S. Peach, has finished his part of the field work. The other assessors will probably finish their field work in about a week.

-The subject for the Baptist Young People's union meeting this evening will be "Adouiram Judson, His Life and Work." There will be special music at this meeting which will be of interest to

-The Womens Tens of the Baptist church will serve a 15 cent supper in the Eagle street rooms Wednesday from 6 to 8 o'clock for the benefit of the Boys Brigade prize drill which is given from 8 to 9

-The eight new open cars for the Hoo. sac Valley street railroad are expected to arrive this week. The cars will be of the division, headed by Clapp's band, to each. They were made by the Jackson

Sharp company of Wilmington, Del. -The Drury-Williamstown high school game which will be held on the fair grounds Wednesday afternoon will be an interesting one. Both teams have decided to win and will make an effort to carry out

their convictions of superiority. -The people of Walnut street are hop-ing that the board of public works will begin widening the street before long. The street is laid two rods wide, and it is said that in some places the road is not petitioned the board of public works concerning the matter some months ago. They have received no response, but trust

that their request has not been forgotten. -Owing to the liability of children to lose money if any they have, especially when on an outing, the management of sale in this city, Blackinton and Williamstown, and people whose children are going to the grove can provide them with these tickets, which, it is believed they will be less liable to lose than small change.

### WITH DRAWN KNIFE

For a few moments Monday afternoon

An Enraged Italian Resents Abuse in a Desperate Way.

ome excitement was caused on Blink street by the efforts of a dozen or so news boys to get out of reach of a knife in the hands of an enraged Italian. The news boys were congregated in the vacant lot in the rear of the TRANSCRIPT building waiting for the papers to be given out. An Italian, who follows as his profession the bone picking industry passed through the yard on his way from Main street to Bank street and his appearance with his sack slung over his bended back caused the boys to stop their frolieing. As he trudged along seemingly unmindful of the boys' presence he was assailed with shouts of derision and a list of nick-names familiar to the voungsters for every bone gatherer. When he showed annoyance by talking back to the boys in his native language and frequently assuming an offensive attitude the boys were delighted and his manner only served to cause a repetition of the shouts. The enraged Italian crossed Bank street and went into the rear of Dr. Dewey's residence and the boys followed at his heels but out of reaching distance. The man's firery temperament could not stand the abuse and insults being so liberally heaped upon him and he took a decided way of showing his anger. Drawing a long knike from a belt which he wore he turned suddenly and ran toward the crowd of boys, waving his weapon and repeating utterances not readily to be translated in English with the entire meaning they expressed. The boys sought refuge in stairways, door ways, stores and in their rapid flight and it was well they disappeared for the man was enraged beyond self-control. Considering the futility of chasing the fleeing tormentors, the Italian sheathed his kuife and returned to his discarded nack, muttering dire vengence and fairly tottering in his rage. Sheriff Frink heard of the affair shortly after it happened and ar.

rested the man on State street for carrying oncealed weapons. The prisoner gave his name as Silvistos Luonzo. His story was heard through an interpreter and three witnesses gave testimony of the affair. The court fined the offender \$10 and warned him against carrying concealed weapons in the future.

### FOR MEMORIAL DAY.

The Attractions Which Will Be Offered at Cole's Grove.

Many attractions have been provided for Memorial day at Cole's grove. There will be a concert in the afternoon from 3 to 6 o'clock and in the evening from 7 to 8 o'clock by the Ideal band. From 8 to 11 o'clock there will be dancing in the pavilion, with music by the Ideal orchestra, ten pieces. Mitchell & Carr, in negro specialties, will be on the grounds all day and help entertain the crowd. A steam merry-go-round will be running. It will carry twenty-eight persons and will be lighted by arc and incandescent lights. Extra cars will be run that day and will pass the grove every twenty minutes. P. P. Paquette of Williamstown will have was begun Monday by W. H. Crews and on exhibition a lot of rabbits of rare species for the amusment of the children. The management of the grove will be prepared for all-day parties and will give them the use of the dining pavilion in which to eat their lunches. There will also be a place where bicycles and packages may be checked. Mr. Grundy of Williamstown has been appointed special officer for the grove and good order will be maintained at all times.

### KNIGHTS OF PYTHIAS.

Will Have a Gay Time at Odd Fellows Hall Tonight.

Mention has already been made of the event to be held at Odd Fellows Hall tonight by Tunnel City division, No. 17, U. R. K. of P. Some of the visiting delegations arrived from the east on the 5 o'clock train and were escorted by Tunnel City Pythian hall, where supper was served by the Rathbone sisters. The Hoosick Falls and Mechanicsville, N. Y., divisions will arrive on the 7 o'clock train and will be met at the depot by all the divisions. A parade will be had through the principal streets and the march will end at Odd Fellows' hall, where the events of the evening will take place, beginning at 8.30

The first thing on the program will be an overture by Clapp's orchestra. An exhibition drill by Tunnel City division will follow. Mayor Houghton will deliver the address of welcome and Brigadier General Abbott and Colonel Edwin Allen will re-

spond. The remainder of the evening will be devoted to dancing. A very pleasant time is in store and the gathering will be the largest ever held here by the Pythians. From 150 to 200 visitors are expected.

### Board of Public Works.

The entire session of the board of nub. lic works Monday afternoon was taken up in auditing bills and considering matters of minor importance. The steam roller recently purchased has been sent for and is expected to be here the latter part of this week or the first part of next week. The crushed stone has not vet been purchased. The board has the prices from three different firms for the stone and is considering the matter carefully before placing an order.

### One More Burglary.

The meat market at 107 State street, A. Perini proprietor, was broken into by thieves during the night and a supply of canned goods and hams, about \$10 worth, was stolen. The entrance was effected by breaking a rear window. The police have not yet located the parties.

METEORS THAT REACH THE EARTH These Strange Visitors From Space Are

All of you have been out of doors on a cloudless evening and have seen a star ap-parently fall from its place in the sky and glide in a long line of light toward the

Perhaps you have wondered, as I used to do, how long it would be before the stars would all be gone from the sky, since one fell so often. I did not then know, what I have learned sluce, that "shooting what I have learned since, that "shooting stars" are not true stars at all, but only bodies which appear for an instant and then disappear forever. Let us call them meteors, and thus avoid confounding them with real stars, for the real stars are as

with real stars, for the real stars are as enduring as anything in the universe.

In common speech, however, the term meteors is largely confined to those shocting stars which are very large and bright and are seen only now and then. Since and are seen only how and then. Since they do not, however, differ from the shooting stars in any important respect, so far as we know, most of the learned sohol-ars who make a study of such subjects consider them the same. Now, if meteors never came any neares

the earth than do those which we so often see, we should know nothing more about them than what we could learn from their light, and that would be very little. But it sometimes happens that one of them can be seen to come directly down to the earth. It makes a bright light as is falls, sometimes so intense as to outshine the sun when that is in the sky. Some-times the meteer carries with it a cloud of smoke and falls with a hissing, spiraters and falls with a hissing, spirater ing noise, throwing out showers of sparks as it descends. This crust on the stones is usually black, while the interior is light gray in color; on the pieces of metal is is of a rusty brown color and the interior of the mass nickel white. The surface of these bedies can be seen, too, to be indented by little pits or hellows which look for all the world as if the mass had once been soft as a plece of putty and some one had pressed it with his thumb in many places.

—Oliver C. Farrington in St. Nicholas.

Where Ships' Sails Sometimes Sing. Some curious facts have been noted with regard to the sound conducting qual-lties of ships' sails. When rendered concave by a gentle breaze, the widespread sails of a ship are said to be excellent conductors of sound.

ductors of sound.

A ship was once sailing along the coast of Brazil, far out of sight of land. Suddenly several of the crew, while walking along the deck, noticed that when passing and repassing a particular spot they al-ways heard with great distinctness the sound of bells chiming sweet music, as though being rung but a short distance Dumfounded by this phenomenon they

quickly communicated the discovery to their shipmates, but none of them was able to solve the enigma as to the origin of these seemingly mysterious sounds which came to them across the water. Months afterward, upon returning to Brazil, the crew determined to satisfy their

curiosity. Accordingly they mentioned the circumstance to their friends and were informed that at the time when the sounds Also Sterling Silver were heard the balls in the cathedral of San Saivador, on the coast, had been ringing to melabrate a force ball above. ing to celebrate a feast held in honor of ne of the sainte. Their sound, wonderful to relate, favored

by a gentle, steady breeze, had traveled a distance of upward of 100 miles over the smooth water and had been brought to a focus by the sails at the particular locality in which the sweet sounds were first heard. This is but one of soveral instances of a similar kind, trustworthy authorities claiming that this same music is often heard under somewhat the same circum stances, and especially in a moisture lade atmosphere.—London Tit-Bits.

"We have used BALED PLANER SHAVINGS exclusively for bedding our cattle, horses, and poultry for the past two years. We prefer them to Straw because the Stock keeps cleaner when bedded with Shavings, the Shavings absorb all the liquid manure and all the gases, making the air in the stable pure and sweet at all times, and the manure is easier handled than that made from straw. The rure air in the stable where Shavings are gred keeps the animals in better health and, with dairy cows, enables us to secure purer, more healthful milk."

Joseph Tromley Sustained Severe Injuries this Morning-Plumbers Granted Licenses-Preparations for Co. M's Encampment—The Renfrews to Play in Pittsfield Saturday-Other News in and About

Joseph Trombley Hurt.

Joseph Trombley, who works for the Renfrew Manufacturing company was assisting in unloading cotton at the Renfrew freight depot this morning when he fell and sustained some had body bruises. He was pushing a truck upon which was a bale of cotton which Frank McNulty was taking from the car to the platform over two planks which formed a temporary bridge. Giving the bale a sudden lurch he pushed the end of one of the boards from the floor of the car and fell to the ground, striking upon a pile of rails beneath. Mr. Tromblev was taken home where he had medical attendance. His injuries are severe but not fatal.

#### Arrangements for Camp.

Company M. is fast completing arrangenents for their week of encampment at South Framingham. Camp begins at noon next Tuesday and the company will go there on Monday. The advance squad which will be in charge of Sergeant Hodecker will leave here Saturday morning. Arthur W. Streeter will supply the provisions for the week and P. J. Keliher will have charge of the mess house and waiters. Jerome Briggs is making some don't want to but give new chests for the boys. The regimental rifle shoot will not occur during camp week this year.

#### To Play Rall Saturday.

Manager Joseph W. Fern of the Renfrew baseball nine is fast getting them into shape and before long there will be some good games to interest the Adams public. The first game of the season will be played at Pittsfield Saturday afternoon when the Renfrews will meet the Stanleys of that city. The make-up of the Renfrew nine has not yet been given out but it will be strong. Duggan and Stetson, two old Renfrew players who have been playing professionally, are in town and will probably remain here this season.

#### Plumbers Licenses Granted.

The board of health hold a long meeting Monday evening and mapped out the plans to visit various places about town and officially inspect them. They will start there trips Wednesday. ### WILLIAMSTOWN.

Important Purchase.

Williams College has bought of the Catholic society its church on Main street and its parsonage on Hoxie avenue. Rev. Father William Sullivan and the Bishop transacted the business last week, though the sale was not made public until Father Sullivan made the announcement in the brain not only takes upon itself the gonpulpit of St. Patrick's church Sunday

It has long been known that the seating capacity of the church was too small for the great increase in the society and many plans have been discussed relative to larger quarters. An agreement could not be made between the members of the society therefore Father Sullivan took the matter to the Bishop who came to town last week when the properly was sold and the property purchased awned by George B. The house which was built by Mr. Waterman a few years ago will be used as a parsonage and a church of Gothic architecture will be built on the Main street side of the property. The church will be of wood and an architect is already at work on the plans. The new location will be more convenient being nearly in the center of the parish.

Much interest is being manifested in the athletic events, and the North Adams society is going to try to capture as many of the events as possible.

WOMEN AND MEN IN ENGLAND.

Their Relations to Each Other In the

Lower and Middle Classes, "One day in Charing Cross station, London," says a woman recently returned from a considerable stay in the English metropolis, "I noticed four young men walking up and down the platform, smoking and twirling their canes. Presently from a third class carriage of an incoming train stepped four good looking girls, weighed down with shawls, lunch baskets weigned down with snaws, much maskets and valiese. By the men, who had ovidently been waiting for them, they were cordially greeted, but not relieved of their huggage. So fer as my eyes could follow their progress, I saw the girls still drag-

ging their belongings, and the men twirling their caues. "The incident strikingly Illustrates the attitude taken toward women by English-men of the people and the lower middle English women of no class have as

If the young man in his mighti-ness chooses to make a remark, she smiles; down, she sits down; if he desires to kiss ered with woolly curls, protected from the breezes and the fog by the net of conse-erated fashion. Her flaring hat, covered with cheap flowers, is airly pinned on the neckward slope of iter head. With no co-quetry other than this pluming of her per-

son does she attempt to please her future "Inevitably the man scorns the woman's intellectual life. An English settlement worker said to me, when I remonstrated at his having a Sunday afternoon meeting for mon only: If I said bring your wives and daughters, the men would not come. It would be impossible for me to convince them that the mere presence of the women

need not make our meeting only fit for babes." "-New York Times

Changes In the Human Brain The wonderful changes which the h man brain undergoes from the moment when it first appears in the embryo until it becomes the perfected laboratory of thought characteristic to the matured human being has been commented upon by soveral of the leading writers on biology, physiology, etc. During these successive changes, or, rather, transformations from the lower to the higher sphere, the human eral shape and form of the brains of various representatives of the lower classes of animals, but appears to have the same structural constituents, at least to a cortain degree. Thus it has been found that the original germ of the brain as it appears in the human embryo has the exact out-lines of a screent's thought factory. After that the changes which take place while the brain is assuming the various shapes which it must undergo before it becomes perfect give it a decided resemblance to the brains of fishes, birds and mammifer-

ous animals.

Hein's "Thoughts On the Structure of the Human Brain" and Wilson's "Anatomy of the Human Body" both mention these queer transformations, as does also Hugh Miller in his famous work, "Testi-mony of the Rocks." Miller puts it in this way: "It has long been known that the human haven is built up by a wonderful process, during which it assumes in succession the form of the brain of a serpent, a fish, a bird and lastly, before it assumes the characteristic human form, it take upon itself the outline of a mammiferous quadrupod's brain." Hence the remark make by scientific writers that "man is the sum total of all animals."-St. Louis Re-

Soon after the post office and custom house at Charleston was seized, and it was learned that Buchanan had plunged the Union into a debt of \$100,000,000, that the northern arsenals had been stripped of arms, and all war vessels sent to the Pacific ocean. It was then realized that compromise with slavery was at an end, and the northern press began to call upon the people of the north to arm themselves, advising every man without a gun "to buy one to meet the treason of Buchanan and his cabinet.' The "irrepressible conflict" had really become a fact.

the purposes of trade and manufactures, being hoarded up by banks and individuals. If a man had money he could make his own terms in the markets for goods. The local militia became excited and alarmed and families saddened by the prospect of brothers and sons becoming soldiers indeed. Edwin Forrest, the great tragedian wrote a friend in Boston: "Great God, in what a melancholy condition is our country now! An inevitable curse begins at the very root of his heart that harbors a single thought of disunion. May God in his wisdom and strongth avert the overwhelming evil.' ### CHEAP PAINT.

The Kind That Soon Fades and Rubs Off.

Good Paint That Should Be Put On from the Inside, Instead of from the Outside.

You can make a very cheap paint by

using an ordinary whitewash. It will cling to the house and barns just as well as it does to the upper walls of your rooms. To be sure it does not last very long and it rubs off. Perhaps you have seen young girls, and some not quite so young, try the trick of putting the color of health on their cheeks by using some red powder or paste. But it does not last long and it rubs off. Yet we can hardly blame them, for who does not like to see the rosy color of robust health, and who is not pained at the sight of the white lins and colorless cheeks? We advise all girls, whether old or young, to paint their cheeks if they are pale But be sure to paint them with something which will last and will not rub off. Put the paint on from the inside

not from the outside. The elements which give color to the blood are minute bodies, called the red blood corpuscles. If there is not enough of these in your blood, then you are pale, weak, without appetite, prob ably thin in flesh and quite nervous. In fact, everything seems to go wrong in the body when there is a deficiency in these life-giving red blood corpuscles. An abundance of these little bodies make rich blood, red blood The circulation is improved and the bright tinge of color comes again to the lips and checks.

You have only to consult medical works to learn that cod-liver oil is one of the best remedies known to increase the number of these red corpuscies of the blood. Eminent medical writers declare that this is one of the most marked features of cod-liver oil. We prefer to recommend to you the oil after it has been broken up into minute particles, as in Scott's Emulsion of Cod-liver Oil with the Hypophosphites. The stomach bears it better n this form, and it makes the oil very palatable also. The hypophosphites are added because the nervous system needs a tonic, something to build it up on a permanent basis. If you are pale, do not get much benefit from your food, mentally and physically unable to work, simply dragging along day after day, take Scott's Emulsion. It puts color on the cheeks. It is a color that comes to stay, and you cannot rub it off. Scott's Emulsion has been indersed

Wiborg's Only Hope.

Philadelphia. May 26.—The decision rendered by the United States supreme court yesterday, holding that Capt. Wiborg of the steamship Horse was guilty of a violation of the neutrality laws in conducting a filibustering expedition to aid the Cuban insurgents, sagreat blow to the friends of free Cuba in this city, who say that, while other expeditions will undoubtedly be sent to that island, they will have to be conducted with much more secrecy and under far more difficult circumstances. Unless the president interferes Capt. Wiborg will have to serve the sentence originally imposed upon him. The opinion, which was delivered by Chief Justice Fuller, holds that the declaron of the Pennsylvania court was correct on the point that the expedition was a violation of the neutrality laws. The judgment of the lower court was affirmed as to Capt. Wiborg, but reversed as to the mates of the Horse, Johansen and Petersen, on the ground that they were ignorant of the purpose of the expedition. Judge Harlan concurred in the reversal of the judgment as to Petersen and Johansen. but dissented from the judgment affirming the sentence against Wiborg. This case was recently advanced by the supreme court at the request of the attorney general, who was desirous of securing a decision as to the condition of the neutrality laws and their effect in preventing filibustering expeditions

Cuban Fair Opens. New York, May 26 .- The great fair for Cuba Libre, or the Cuban-American fair, was opened last night in the Madison Square garden. The garden presented a gorgeous appearance, with many lights and the blending of the Cuban flag and "Old Glory," while the gaily decorated booths added to and

heightened the general effect. There were everywhere hosts of dark-eyed beauties, who did their best to wheedle the seductive coin from the purses of the large number of visitors, and there were early indications that they were eminently successful.

thing unusual is the large hauls of see bass in the pounds. They are selling large quantities as low as two cents : pound, one firm selling 400 pounds at one and a half cents on Saturday. This they say does not pay for the hauling. The tishermen have organized and in corporated a company known as the Atlantic Fish company. The object is to dispense with commission men, and the new method goes into effect on June 1. Fish will then be shipped direct to consumers at a fixed price. By this method the fishermen expect to realize a fair return for their labor. For many years past the fishing business, according to those who follow it, owing to the numerous pound fisheries and necessarily large hauls, has proved profitable only to the commission houses. The new company has a paidup capital stock of \$15,000, and among its members are the leading pound fishermen along the Atlantic coast in this neighborhood.

NOT LEGALLY APPOINTED.

No Pay for the New York Confidential

Liquer Agents. Albany, May 26 .- The sixty confidential agents who are to scour the state and see that there are no violations of the Raines liquor tax law are not likely to receive their monthly salary right away, unless the courts come to their aid. State Comptroller Roberts announced to-day that he would not amination. He bases his opinion upon the written opinions of Elihu Root, ex-Judge Danforth of the court of appeals, Norman B. Eaton, Everett P. Wheeler, John C. Milburn, and Matthew Hale of Albany. All of these gentlemen are of the opinion that the appointment of these special or confidential agents, without their having passed a competitive civil service examination, is in direct violation of the civil service provision of the state constitution, and that those special agents already named have never been lawfully appointed.

APPROPRIATION BILLS OUT OF THE WAY

Butler Bond Measure and Filled Chappe Bill the Subjects Remaining in the Senate-Alcohol Tariff in the House.

Washington, May 26 .- Now that all the annual appropriation bills are out of the way, the last, the deficiency bill, having been passed yesterday afternoon, the senate has practically completed its labor for the present session The Butler bond bill and the filled cheese measure will probably engross the attention of the senate for several days, the bond measure being on the programme for to-day. The deficiency bill as reported from the appropriation committee covered items aggregating about nine million dollars; about twice the amount that it carried when it came over from the house. In its prograss through the senate the aggregate was still further increased by the apprepriation of over a million dollars for findings in the French spoliation claims; of over half a million dollars for findings of the court of claims under the Bowman act. The bill was also heavily loaded with private claims, House of Representatives.

The house to-day in committee of the whole is still considering the bill to repeal that section of the present tariff law providing for rebate on medicinal compounds. Mr Evans, rep., Ky., on behalf of the ways and means committee, offered an amendment providing for the appointment of three senators and three representatives to consider the question relating to the use of alcohol in the arts and manufactures free of tax and to report to the next session of congress. In advocating the passage that no resolutions could be framed language of the section directed-that 'would protect the government, and that the government stood to lose \$25,since it was enacted. The repeal of the section was vigorously opposed by Messrs. Russell and Hill, reps., Conn., on the ground that it would be a re-versal of one of the principles of the republican party in the matter of protection-the latter giving notice that he would move to strike out the repeal clause and insert instead the amendment for a committee of investigation.
